DiGiGrad Africa

Internationalisation and Digitalisation of Graduate Training and Research for the Attainment of African Regional and Global Development Goals

TRAINING SHEET

Research Methodology – Ethics in Research

Detailed technical sheet for DiGiGrad's series of webinars for the WP4 Training of Postgraduate Students (Early Career Researchers) on Digital and Transversal Skills:

Section	Details
Title **Training Partners**	Ethics in Research Maastricht University
Number of Sessions **Duration**	1 2 hrs
Date and Time	22 April 2025 GMT: 12:00-14:00 WAT: 13:00-15:00 CAT/CEST: 14:00-16:00 EAT: 15:00-17:00
Platform	Registration is done through this form: https://forms.gle/gV5t7yo1NFS5enJ66 Materials will be shared through a toolkit on Ethics in Research, available at the open access Moodle platform of UNU-MERIT.: https://unu-merit-cdo.moodlecloud.com/course/view.php?id=17 The lecture and discussion session will take place on zoom.
General Objective	This Ethics in Research Online Course offers guidelines to the most important elements that researchers will need to consider in relation to ethical scientific behaviour. These ethical rules generally hold for the global research community, but each country or institution may have defined their particular rules as well. Obviously, the rules of your country or institution are the ones you will need to follow.
Topics Covered	• Concept of Ethics in Research • Ethical considerations setting up your research • Ethics during data collection • Ethics during data analysis • Ethical behaviour in academic writing

Target Audience	Master and Doctoral students
Benefits for Participants	In the short online course, we will cover the elements ethical treatment within the research cycle, including participants, sponsors and researchers. Upon completion you will understand why ethics plays a role in all steps of the research process, as well as have guidelines where to find more information. For these guidelines, we will refer to open access resources. This information may not be fully complete or up to date, so always keep in mind to check out the guidelines of your institution or programme.
Speaker(s)	Dr. Mindel van de Laar, mindel.vandelaar@maastrichtuniversity.nl

Additional Information

Element	Details
Methodology	Participants are requested to review the toolkit before the lecture.
